Dear Mr. Toronto:

RE: ML 46471-Industrial Sands
S/053/041 Washington County

This letter will advise you that notification and permitting requirements have been met with regard to your proposal to mine blow sand deposits under the above numbered lease. You may now commence mining operations.

This approval to commence mining operation is given subject to your commitment to remove and dispose of all trash and debris which you may encounter within the sand deposits. Also, please adhere to the permit requirements or recommendations given to you by other state agencies.

The division will not require a reclamation bond at this time since little surface disturbance is anticipated. The division, however, reserves the right to require a bond at a later date if necessary.

Please pay close attention to the royalty covenants within the lease and submit your royalty payments on a timely basis to avoid penalty.

Thank you for your cooperation. Please call me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "John T. Blake".

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST
